

DOKUMENTACJA TECHNICZNA
FONTU MUCHA WER. I

Na następnych stronach zamieszczone są sformatowane listingi źródłowych plików fontu MUCHAI (*Musical Characters*, ver. i). Font został przygotowany za pomocą systemu METATYPE1 (bazującego na systemie METAPOST; <http://ctan.org/tex-archive/fonts/utilities/metatype1>).

Na font składają się cztery pliki `muchai.mp` (plik sterujący), `muchai.mpe` (plik definiujący kodowanie), `muchai.mph` (plik definiujący nagłówki fontu) oraz `muchai.mpg` (plik definiujący obwiednie znaków). Listing ostatniego z plików zawiera ilustracje pokazujące szczegółowo konstrukcję poszczególnych znaków.

Na końcu podane jest dodatkowo testowe zestawienie („wglądówka”) wszystkich znaków w foncie.
